

CEMETERY RULES AND REGULATIONS

Purpose

These rules and regulations are designed for the protection of Owners of Interment Rights as a group. They are intended not as restraining, but rather as preventing the inconsiderate from taking unfair advantage of others. Their enforcement will help protect your Cemetery and create and preserve its beauty. These rules and regulations are hereby adopted as the rules and regulations of the Cemetery and all owners of interment rights. Visitors and contractors performing work within the Cemetery shall be subject to said rules and regulations, amendments of alterations as shall be adopted by the Cemetery from time to time.

Perpetual Care

For the purpose of the care and maintenance and the reasonable administration of the cemetery grounds and buildings at the present time and in the future, a Perpetual Care Trust Fund has been established.

Interments

Property in the cemetery shall be used only for the purpose of burying the remains of human beings.

Owners shall not receive any property, but rather only receive the right to control the interment for that property.

Pursuant to State Law, an individual who signs an authorization for interment of human remains is considered to warrant the truthfulness of any fact set forth in the authorization including the identity of the person for whose remains the interment, entombment or inurnment is sought and also the individual's authority to order final disposition. Moreover, the individual signing the authorization is personally and individually liable to pay damages in compensation for harm that is caused by or results from the signing of the authorization.

Interments and disinterments will be allowed only upon written consent of the owner, or surviving heir or heirs of deceased owner, or his or her administrator or executor unless under court order.

Upon the death or judicially declared incompetence of an owner, it is the duty of the heirs, devisees or guardian to file with the Cemetery proof of their right to use the lot; and further burials upon the lot may not be permitted until such proof is presented.

A transfer of Interment Rights is not effective until approved and recorded by the Cemetery, and any-all applicable transfer fees are paid.

It is not the policy of the Cemetery to repurchase Interment Rights.

Joint owners shall reserve the right to use for interment the number of spaces proportionate to their ownership without the consent of the other owners. In cases of divorce where both parties are named as purchasers on a contract or right of interment, a copy of the divorce decree specifying who has rights to the property and/or merchandise must be provided to the Cemetery before any interment or transfer of ownership is allowed.

When instruction regarding the location of an interment cannot be obtained, or is indefinite, or when for any reason the interment space cannot be opened where specified, the Cemetery may, at its discretion, open it in such location as deemed best and proper, so as not to delay the funeral; and the Cemetery shall not be liable in damages for any error so made.

The Cemetery reserves unto itself the right to ingress and egress over all lots at all times. This reservation of rights is subject to and shall not limit the rights afforded outside dealers under applicable Georgia law.

The number of interments that may properly be made upon a lot is definitely fixed at the time of purchase and no more will be permitted except by the express written consent of the Cemetery.

Except in emergency cases, forty-eight (48) hours notice is required for the preparation of a grave. The digging and preparation of a grave shall be done solely by the employees of the Cemetery or its agents, the reasonable cost for which shall be paid by the owner prior to any interment being made. It will also be necessary for a member of the family to sign a proper interment order and make satisfactory financial arrangement as to the grave opening/closing professional service fee. Because of the difficulty of handling, an extra charge will be made for vaults of unusual weight or size. Interments, Entombments or Inurnments on Weekends and Holidays are subject to an additional grave opening/closing professional service fee.

Not more than one body, or the remains of more than one body, shall be interred, entombed or inurned in one space, except by the written consent of the Cemetery.

The scattering or placement of cremated remains shall be permitted only upon the written approval of the Cemetery and shall be subject to the payment of all applicable Cemetery fees and be in compliance with all applicable laws.

Disinterment

The term disinterment refers to the act of removing human or cremated remains from an interment, entombment, or inurnment space for the purpose of relocating the remains to another interment, entombment, or inurnment space in the cemetery or moving them elsewhere.

As a condition for performing any disinterment, the Cemetery requires written authorization signed by the Owner and/or the deceased's next-of-kin or their respective authorized representative on a form approved by the Cemetery. The Cemetery may also require additional documentation including a court order. All disinterments must be conducted in accordance with state and local law.

The Cemetery shall exercise due care in making disinterments, but shall assume no liability for damage to the body, casket, outer burial container, or urn in making a disinterment in accordance with written instructions of the Owner or his or her duly authorized representative(s). When a disinterment is to be made from one grave to another grave and an outer burial container was not used for the original interment or is damaged prior to or during the disinterment, an outer burial container meeting the Cemetery's specifications must be furnished by the Owner or next-of-kin for the new interment.

Owners or any other person having an interest in any Interment Rights are permitted one interment, entombment, or inurnment per space. If a disinterment, disentombment, or disinurnment occurs, the space reverts back to the Cemetery.

Planting

Planting and removal of grasses, shrubs, flowers, etc., are at the discretion of Cemetery Personnel. The Owner shall not receive any property, but rather only receives the right to control the interment for that property. Ownership does not confer any right to do planting, etc., without the express written consent and signature of appropriate Cemetery Personnel.

Ornamentation of Lots

The Cemetery retains control and supervision of all property which is sold; and the Cemetery retains the right to enter upon any property and prohibit, modify or remove any structures, object, improvement or adornment which may have been placed thereon in violation of the rules; or which may be considered objectionable or injurious to the property or to the Cemetery in general without any notice either on a scheduled clean-up date or any other time without right of claim by Owner. Except for outside dealers operating in accordance with Georgia law, no work may be done except by the regular employees of the Cemetery, except by express written consent and signature of appropriate Cemetery Personnel.

Flower and Floral Arrangements

Floral arrangements are limited to one arrangement per marker, unless said marker has provisions for additional vase or vases. Vases must be used that are integral with the marker.

Cut flowers may be used at anytime, provided the flowers are in a vase approved by the Cemetery. Unapproved receptacles, baskets and designs will be removed at the discretion of the Cemetery without right of claim by Owner.

Potted Plants

Potted plants will be permitted upon property at Easter, Memorial Day and other similar occasions. If not called for within five days they may be eliminated. Upon application to the Cemetery, potted plants may be allowed on special dates for five days. At all other times potted plants will be removed. Florists' deliveries of potted plants and flowers will not be permitted on Memorial Day.

Emblems

Metal emblems or markers are prohibited except on Memorial Day, not to exceed two days before Memorial Day and removed not later than three days thereafter. Otherwise the Cemetery without claim or right by the Owner will remove such emblems.

Flags

Flags will be allowed on veterans' burial sites throughout the year, provided that the flag is secured by either an approved veteran's flag holder or within an approved vase (refer to the second paragraph under subsection Flowers and Floral Arrangements). Under no circumstances should the height of any secured flag exceed two and a half (2-1/2) feet.

The Cemetery reserves the right to remove any flag that is deemed to be unsightly, offensive or displayed in such a way that it could be dangerous to any employee or visitor.

No memorial may be set to embrace two or more grave spaces except a Companion or a Family Memorial, nor shall more than one family name be permitted on any memorial, unless approved in writing by the Cemetery at the time of the sale of the Interment Right. All memorials shall be set on uniform lines as prescribed by the Park, to conform to the general plan of the Park. The marking of each lot, grave or graves, except as hereinafter provided, is restricted and limited to flat bronze tablets (not less than 87% copper, 5% Tin, 2.5% Zinc, all other elements not to exceed 2.5%) on a granite base set flush with the turf, except in areas platted and specified for the sole use of upright monuments. Future death date scrolls or engravings are not included in the purchase of any marker unless specifically stated on a contract by the Cemetery. Except for purchases from or installations by dealers operating in accordance with Georgia law, all markers must be either purchased from or approved by the Cemetery with installation performed by or under the control of the Cemetery.

Installation charges will be at the standard rate in effect at the time of installation and are based on the area of the foundation or base of the marker for outside dealer installation performed by Cemetery personnel. There will be no extra charge for the installation of a marker purchased from the Cemetery. There will be a charge for supervision of any installation done by an outside dealer.

The Cemetery will not be responsible for Memorials or Benches that are rejected for installation because they do not meet the required specifications.

A bench rite must have been purchased from the Cemetery and paid in full prior to installation. Benches are required to be made of granite and must have a granite base underneath the structure.

The cost of any repair, removal or replacement shall be paid by the Owner of the Interment Right.
